speaking engagements

West Virginia Higher Education Technology Conference | WVU, 2014

The Uncommon Core

- › “As online interactions become more common and familiar, the less they seem a barrier to learning; and can even enrich courses with unique and engaging content. This session will focus on three specific types of interaction: image maps, drag-and-drop, and branching simulations. Through semi-technical discussions and live visual demonstrations; each will be examined from progeny to extensibility.”
